

# Copper Grease

## PRODUCT OVERVIEW

Copper Anti-Seize is a formulation of metal flakes suspended in extreme pressure lubricants which will not dry out or evaporate, even in abnormal conditions. It contains special high pressure additives to counteract the effects of metal-to-metal contact. It contains no lead or silicones, is non-toxic and safe to use on all metals, rubber & plastics, and it has a high resistance to sea water

## FEATURES AND BENEFITS

- Protects metal components against corrosion, heat and water
- Stops and prevent brake disc squeal
- Eases future dismantling
- Protects heat stressed metal components from seizure

## TYPICAL APPLICATIONS

Use on exhaust manifolds, steering and suspension equipment and all threaded metal fastenings.

## DIRECTIONS FOR USE

Remove dust and dirt from surfaces. Shake can well & spray evenly over area to be treated. Remove overspray where necessary with a clean lint free cloth. Immediately after use, turn can upside down and spray briefly to clear the nozzle. Always test brakes after use. May have a detrimental effect on painted surfaces and some plastics. Do not apply to friction material or disc.

## TECHNICAL DATA

APPEARANCE	Copper coloured spray
ODOUR	Paraffinic
pH	Not applicable
AUTO-IGNITION TEMP	No data available
FLAMMABILITY	Extremely Flammable
PRESSURE	70 PSI (at 25°C)

## PACKAGING SPECIFICATIONS

PRODUCT NUMBER	<b>XOMCGR</b>
UNIT SIZE	500ml
CASE SIZE	12
Bar Code	0754590471305
UFI:	R9J5-4OY7-KOON-PNWM
STORAGE	Store below 50°C, avoid direct sunlight

CLEANS

BOLT

SHOCK  
ABSORBER

TIMING  
BELT

SPARK  
PLUG

PISTON
